

MANITOU MC 25-4 ROUGH TERRAIN FORKLIFT

Features and Benefits:

The MC 25-4 is part of the Manitou compact rough terrain forklift range. As all the machine in the MC range, it offers a generous ground clearance of 31cm, the best on the market for this type of machines. This high ground clearance in combination with its torque and its power provide the MC25 with an exceptional terrain resistance allowing it to negotiate banks and slopes easily: you will have no problems negotiating the roughest of conditions.

The MC 25-4 is designed for efficiency and productivity but also comfort for the operator. With a complete visibility panoramic roof, the operator benefits from an optimal view even when handling loads at height. the operator of the Manitou MC 25 will also appreciate the noise level of 79dB when the average for this type of machines is 86!

Specifications:

- Type Rough Terrain
- Capacity:2500 kg
- Lift Height:3.30 m
- Engine:Kubota
